

Blackstone Models™

HOn3 Ready-to-Run Products Retail Price Sheet

Note: Some Blackstone Models items are sold out at the factory, but may be available at your local hobby shop.

Items on this price list are those currently available from the factory. Prices are effective September, 2017 and are subject to change without notice.

About Blackstone Models Locomotives

Blackstone Models locomotives are designed for exceptional slow-speed operation and a minimum operating radius of 18 inches. Track power is picked up by all drivers and tender wheels for smooth running, even over switches. Die-cast construction provides excellent detail while furnishing the extra weight needed for reliable operation and superior pulling power. All locomotives are equipped with a custom SoundTraxx™ Digital Sound Decoder, golden-white LEDs, and Kadee® No. 714 couplers.

D&RGW and RGS C-19 Locomotives

These authentic HOn3 replicas feature period paint liveries and prototype-specific details.

About Blackstone Models Rolling Stock

Blackstone Models HOn3 ready-to-run rolling stock are constructed of high-quality die-cast metal and injected-molded plastic, and come equipped with free-rolling trucks and Kadee No. 714 couplers. They also feature crisp graphics, individual wire detailing, grab irons, brake rigging, and underbody details.

D&RGW 5500 Series Stock Cars

This release includes two body styles after the 1926 rebuild. Freshly shopped cars are painted a semi-gloss black while some road numbers feature flat black paint ** to simulate fading from the Colorado sun.
